

Gallery of Lisa B. Corfman

Origami Museum President, Founder and Exhibitor

The Origami Community is the base that brings together the general public and origamists with the museum, classroom and gift shop.

The museum introduces origami as art to the public to educate viewers towards improved educational and recreational understanding. The classroom provides teachers with both a place to teach and a space to enable patrons to be able to fold and keep their own origami. The gift shop offers origami items for sale to origami enthusiasts and other patrons alike.

Fold with the community!
