

Heart Shuriken

By Wensdy Whitehead

Recommended Paper: two (2) squares of kami or other two-sided paper 6" (15cm) or larger.

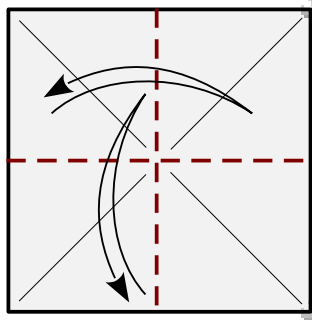

1.

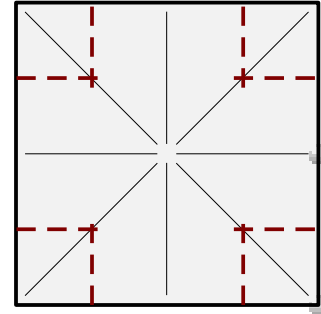

Fold and unfold.

2.

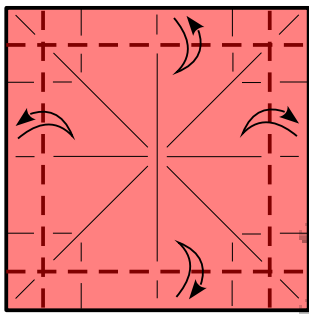

Fold and unfold.

3.

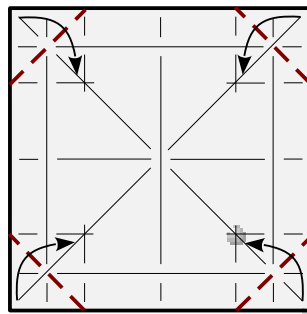

Pinch the quarters.

4.

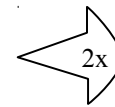

Fold and unfold the eighths.

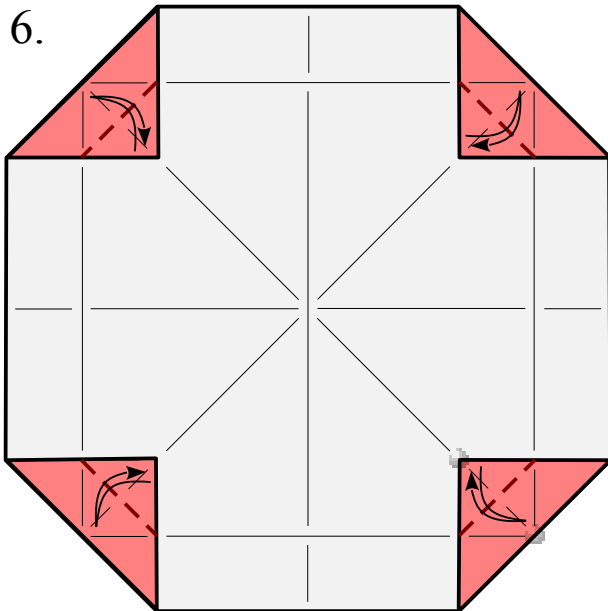

5.

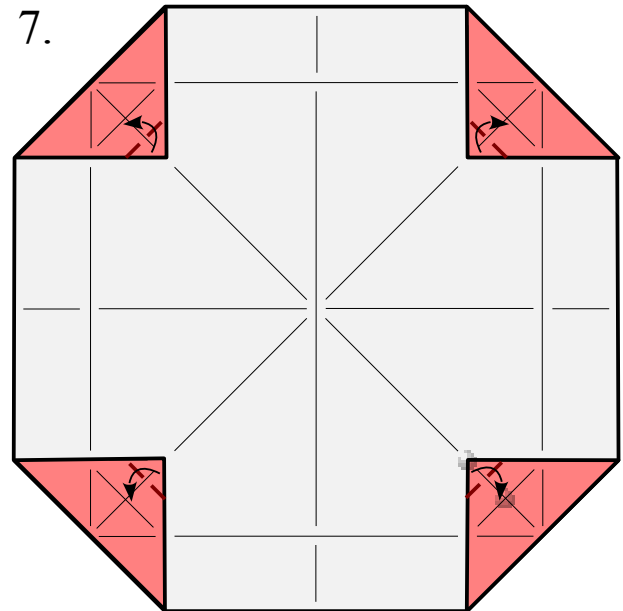

Four (4) valley folds.

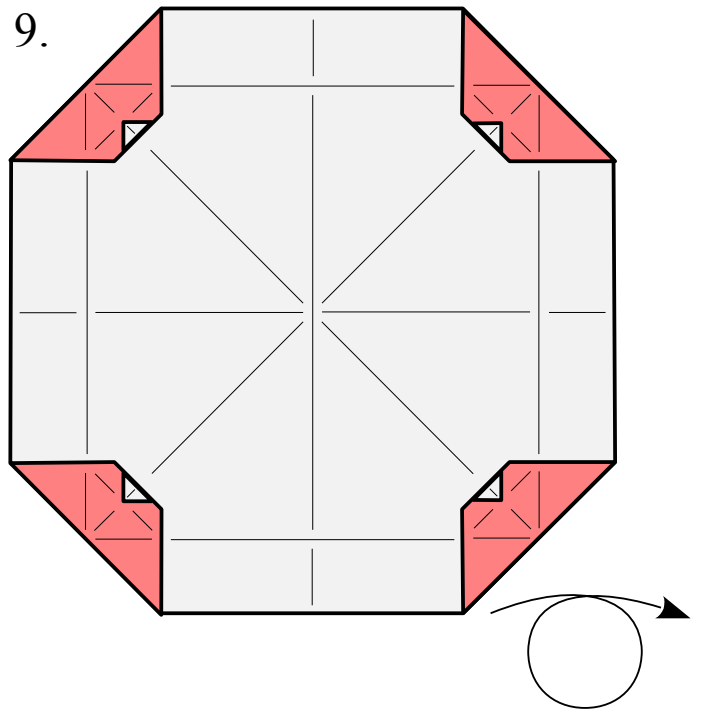

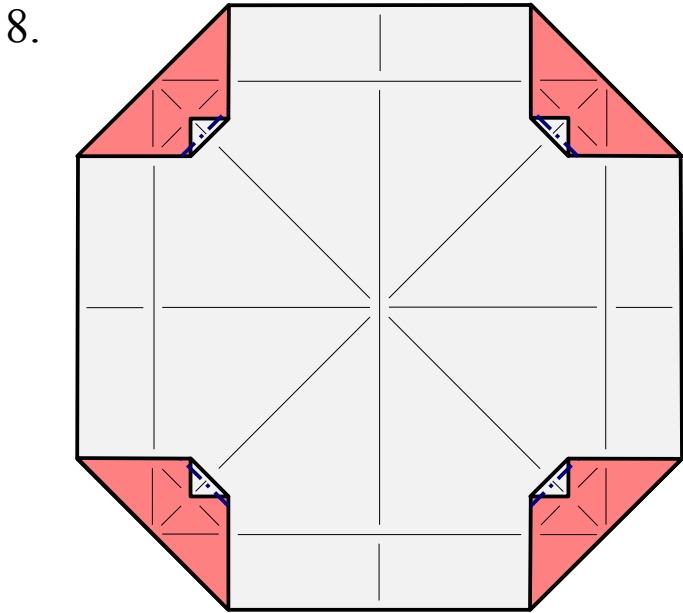

6.

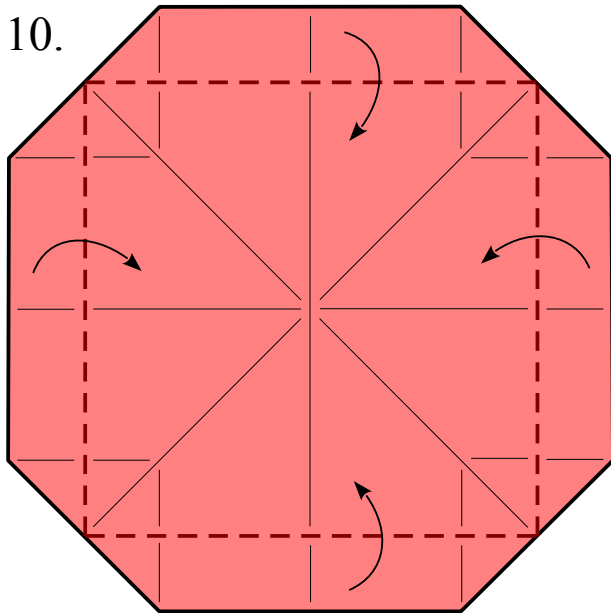

7.

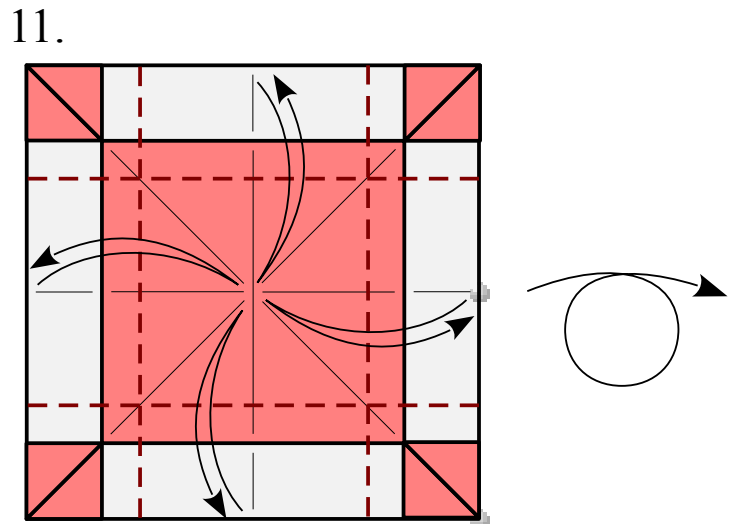

The next few steps can be accomplished by a good eye estimating the center and deft fingers, but adding this fold is easier. A pinch across each diagonal will suffice, but the fold is small anyhow.

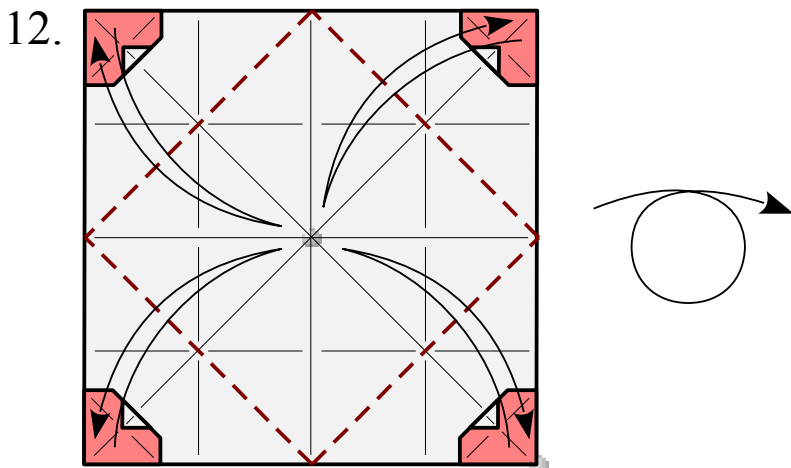

Mountain fold tiny hems to round the tops of the hearts.

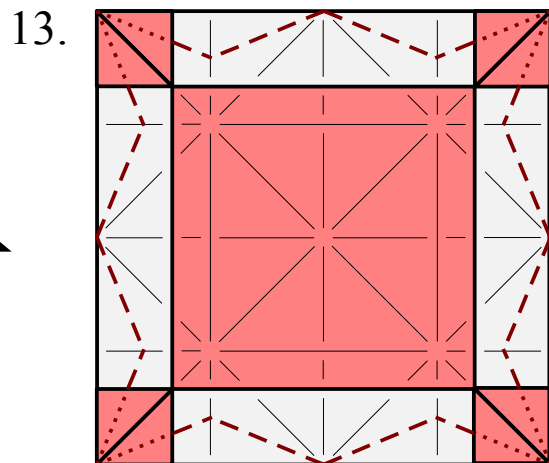

Refold the eighths. No new creases.

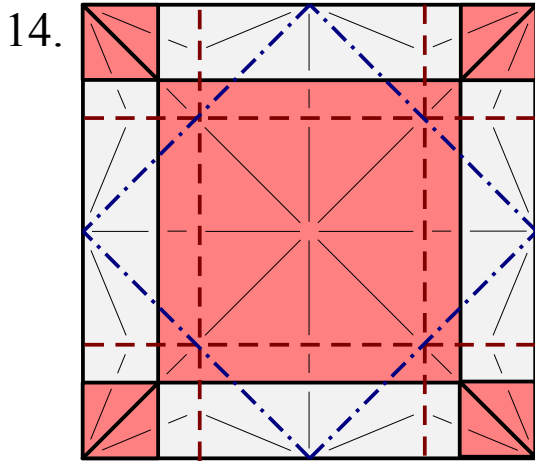

Fold and unfold both pairs of cupboard doors.

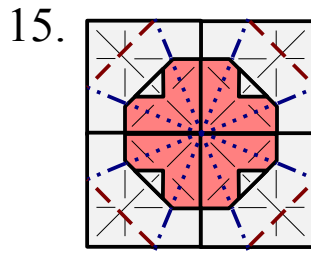

Blintz and unblintz.

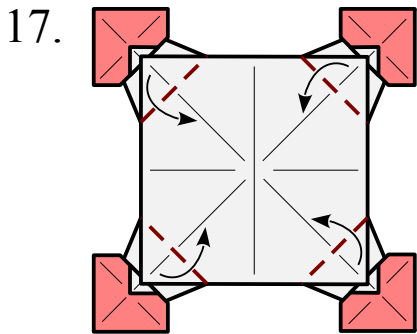

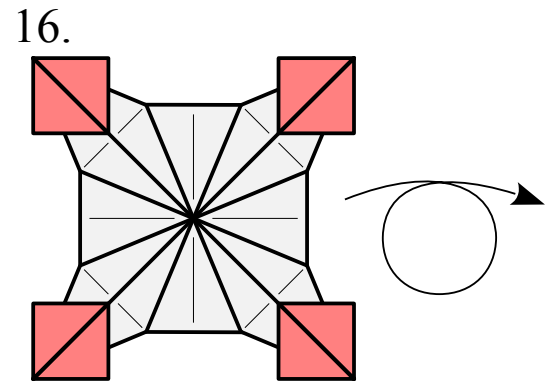

Pre-crease. On the corners, carefully fold only the inner white layer and not the outer colorful paper.

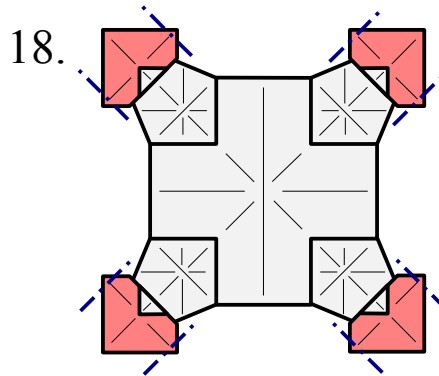

Simultaneously collapse a preliminary base on each corner.

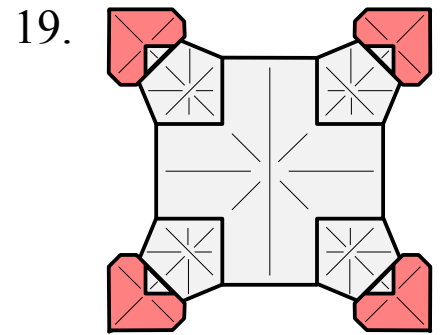

Petal fold each corner, carefully folding only the inner white layer and not the outer colorful layer.

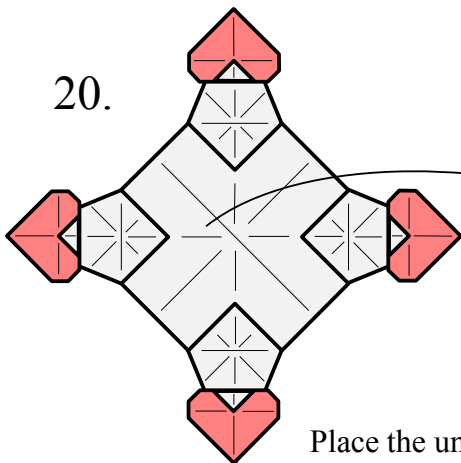

On one unit, fold. On the other, fold and unfold.

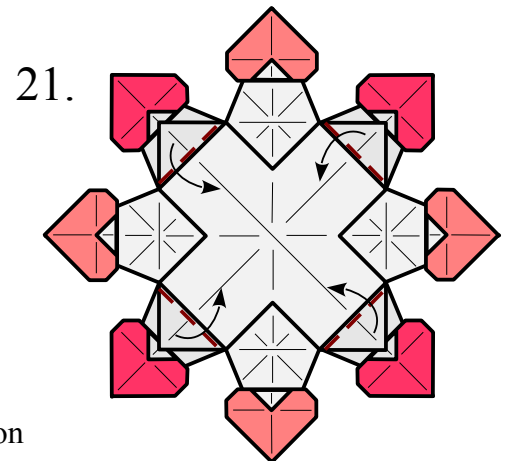

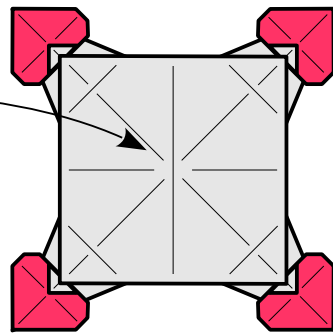

Round the sides of the hearts using tiny mountain folds.

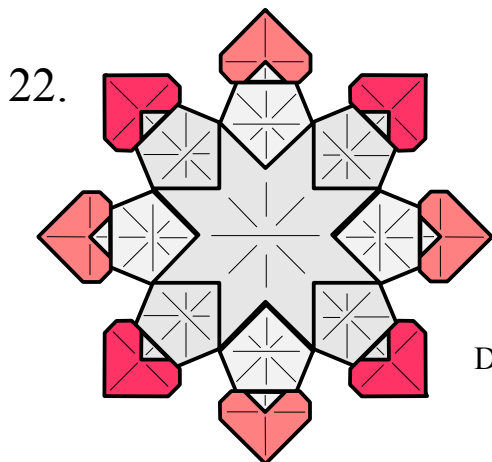

Fold a second one of these.

Place the unit with the corners folded from step 19 on top of the other unit rotated 45° with respect to it.

Refold step 19 on the rear unit.

Done!
