

Heart Star Dish

By Wensdy Whitehead

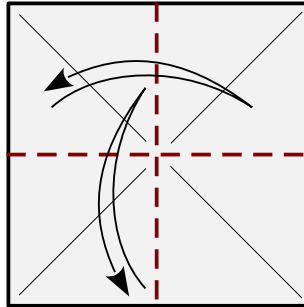

Recommended Paper: kami or other two-sided paper 6" (15cm) square or larger.

1.

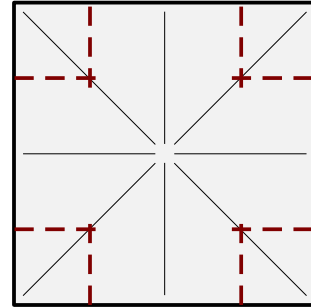

Fold and unfold.

2.

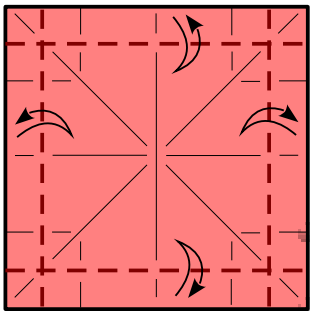

Fold and unfold.

3.

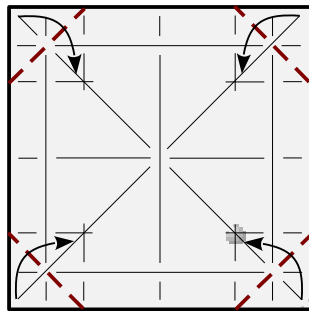

Pinch the quarters.

4.

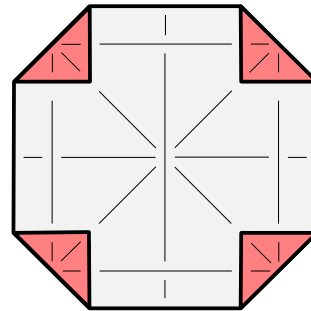

Fold and unfold the eighths.

5.

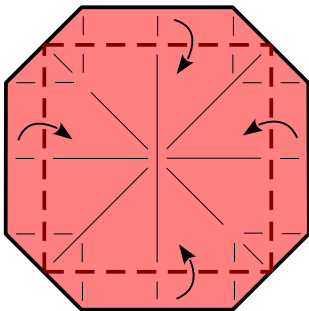

Four (4) valley folds.

6.

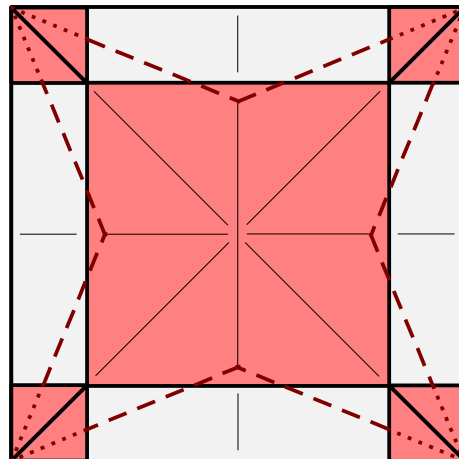

7.

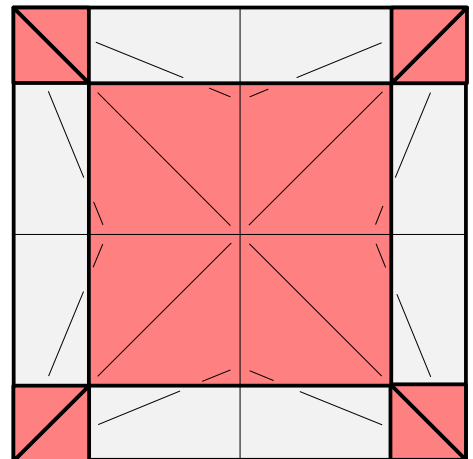

Refold the eighths.
No new creases.

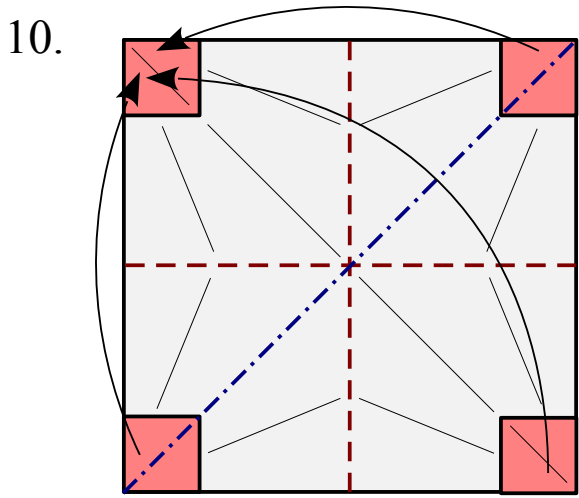

8.

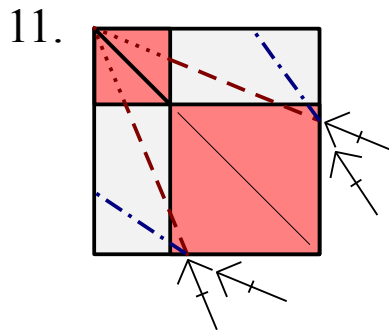

Pre-crease. On the colorful corners, try to fold only the inner white layer to avoid extra crease lines on the heart.

9.

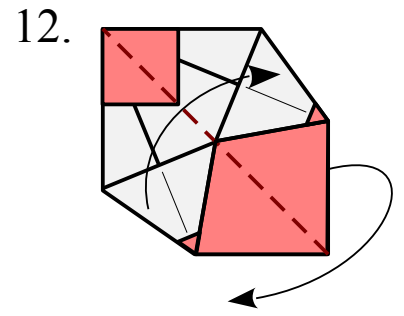

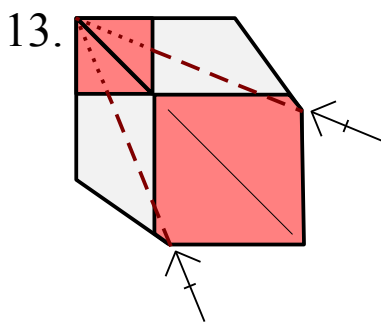

Collapse as a preliminary base.

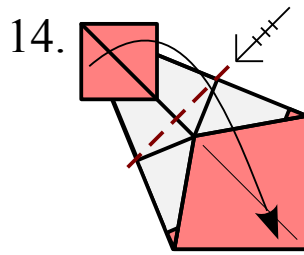

Squash the white layer, using the pre-creases. Repeat behind.

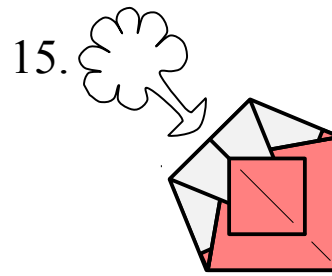

Page-turn front and back.

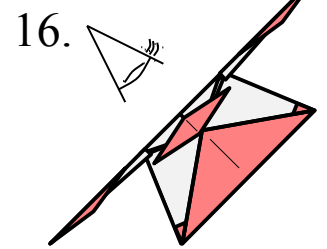

Valley fold the white layer. Repeat behind.

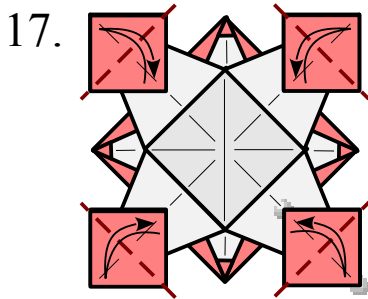

Fold down the front and back flaps as far as they will go. Page-turn front and back to do the same to the other two (2) similar flaps.

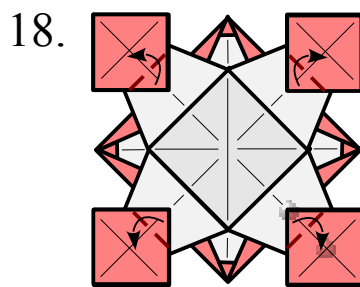

Inflate with your fingers, making the model into a star dish. Model becomes 3D.

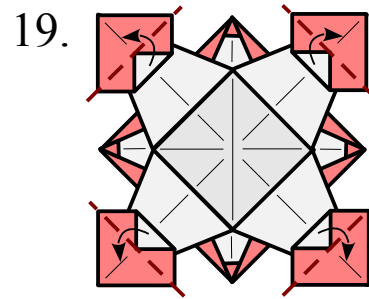

New view.

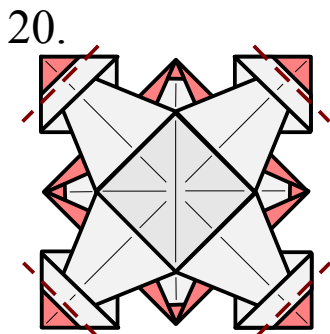

The next few steps can be accomplished by a good eye estimating the center and deft fingers, but adding this fold is easier.

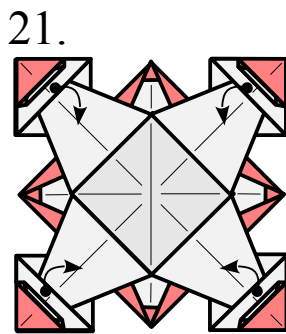

Fold the corner to the center of the colorful square.

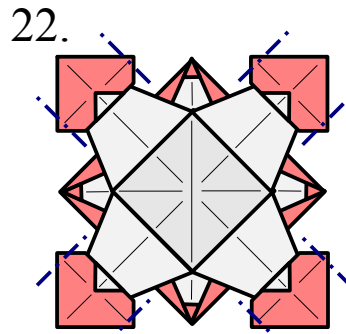

Temporarily refold step 17.

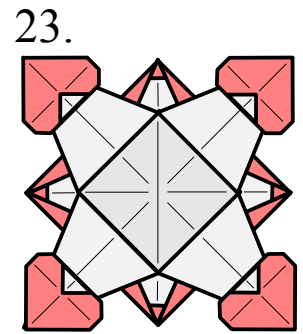

Make a tiny hem to round the top of the heart.

Unfold step 19.

Round the sides of the hearts using tiny mountain folds.

Done!
