

Iris

As in camera, eye or flower

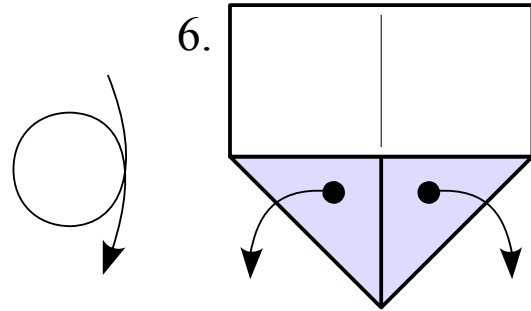

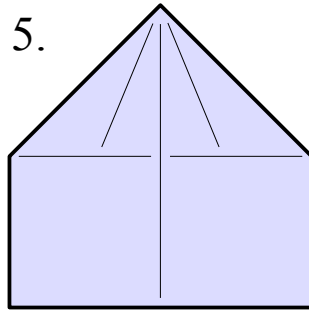

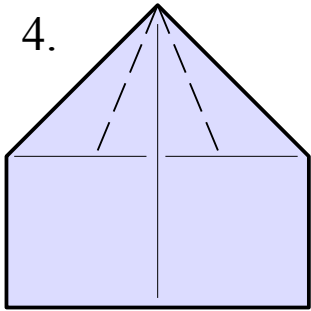

Recommended Paper:
1-3" (25-75mm)
Paper-backed foil or
duo foil.

By Wensdy Whitehead

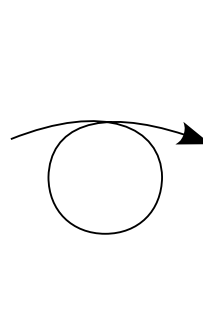

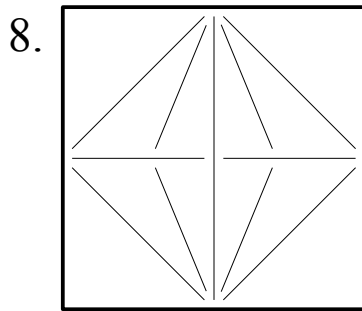

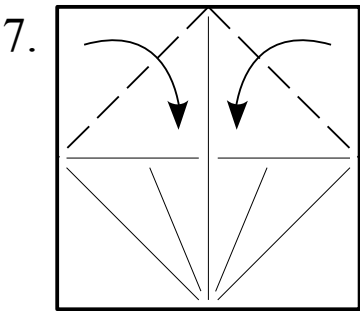

It helps to fold the horizontal book fold as both mountain and valley.

Roof fold.

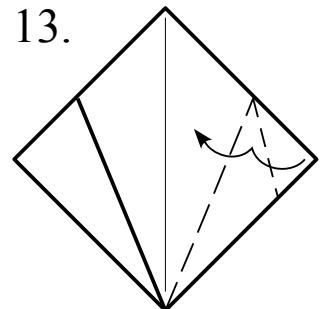

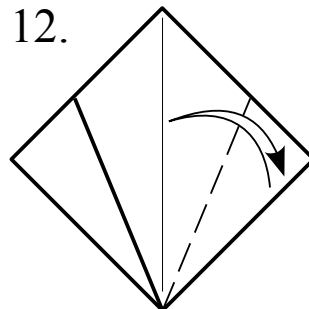

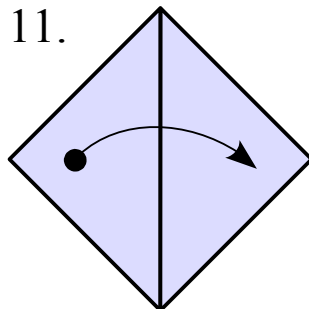

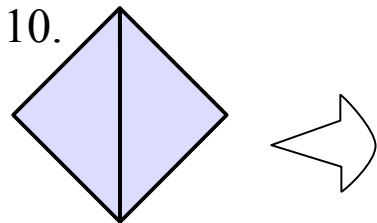

Pre-crease the top layer to the center line.

Unfold completely.

Repeat steps 2-6.

Collapse.

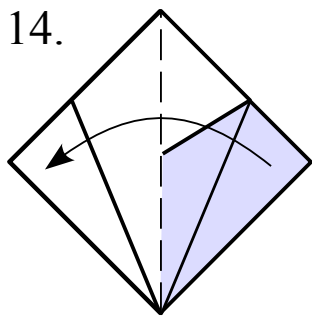

Best to place the better side face-down. The split corner is away from you.

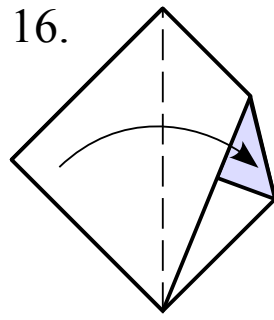

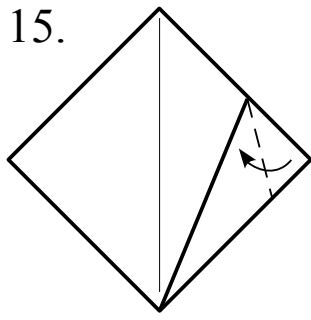

Page-turn 1 layer.

1 layer only.

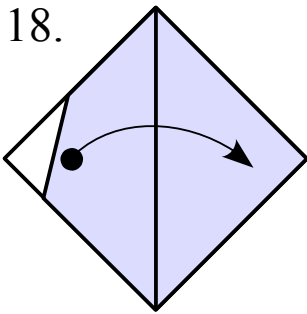

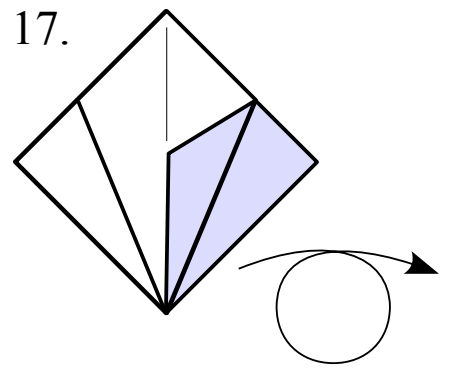

1 layer only.

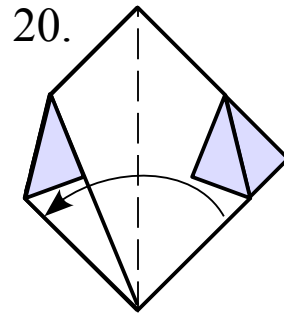

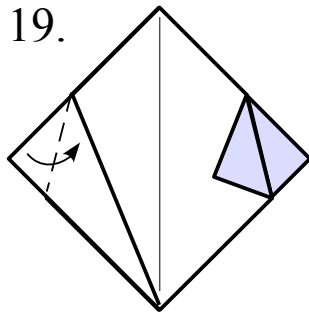

Page-turn 2 layers.

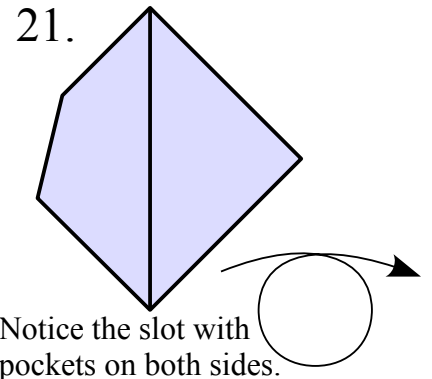

Page-turn 2 layers.

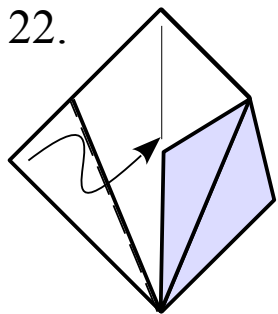

Page-turn 1 layer.

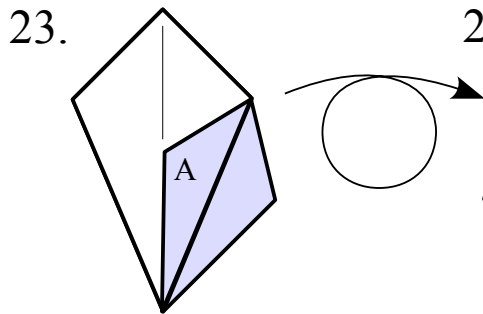

Page-turn 1 layer.

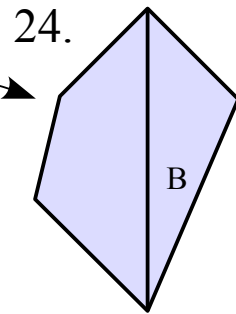

Notice the slot with pockets on both sides.

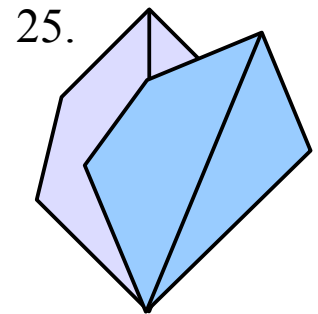

Fold tightly around 1 layer and tucking under the top layer.

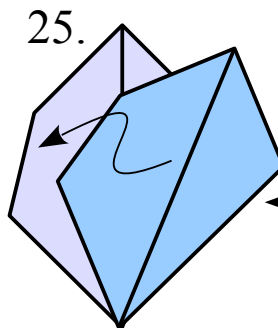

The tabs are the colorful flaps.

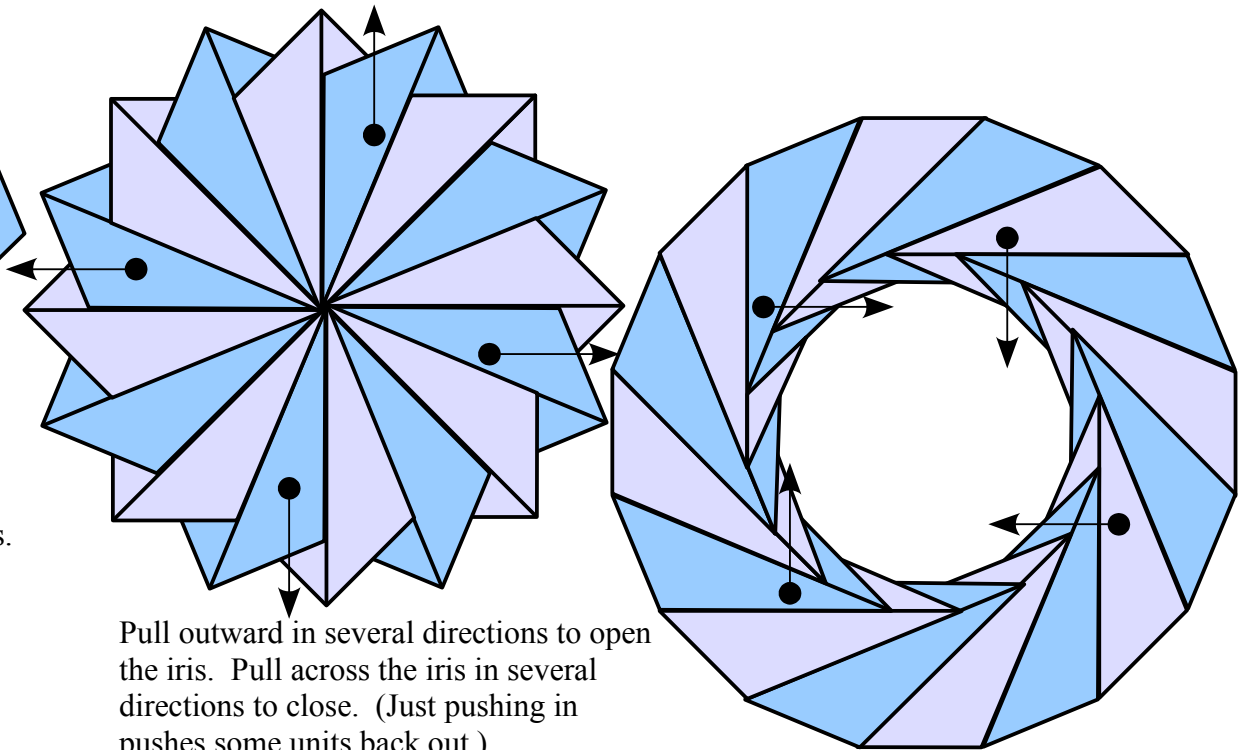

Fold 16 units.

Slide the hidden tab A into pocket B.

Slide the left-hand edge into the other side of the pocket. Repeat with all units.

Pull outward in several directions to open the iris. Pull across the iris in several directions to close. (Just pushing in pushes some units back out.)
