

Yet Another Fancy Dish

By Wensdy Whitehead

Recommended
Paper: $\geq 6''$ (15cm)
square.

Partial diagonals.

Kite pinches.

Collapse each corner like a waterbomb base by pulling the center of each side inward to the center of the paper.

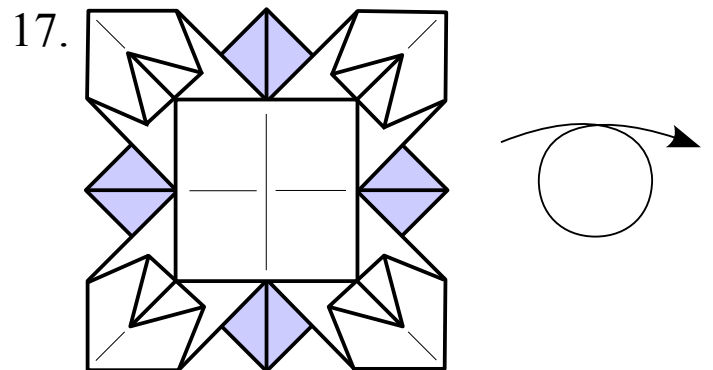

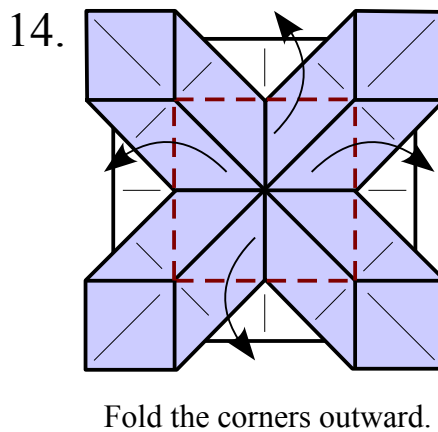

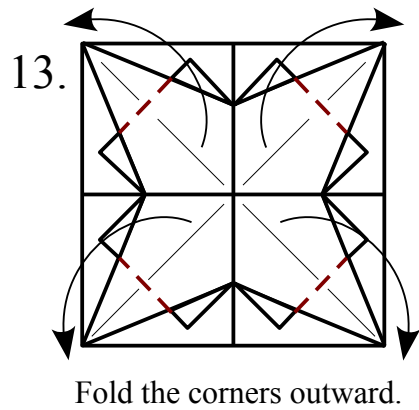

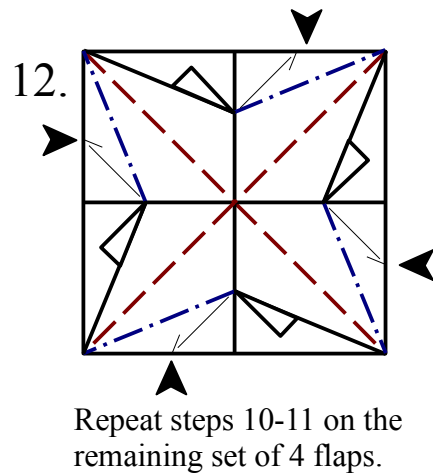

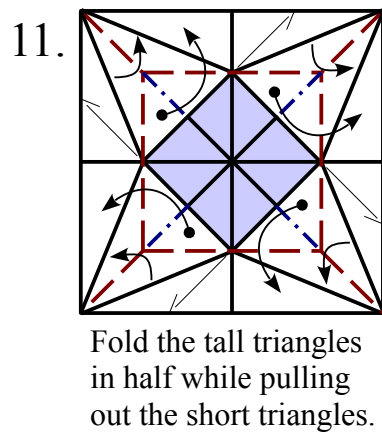

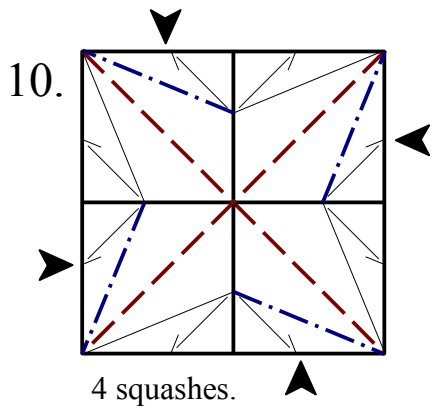

Kite folds.

The new folds connect the corners and the points where the kite pinches meet the edges.

Unfold steps 7 and 8.

Open each corner from underneath and pinch closed to keep it open and bring the dish 3D. Include an optional layer on each side of each corner to lend the sides extra strength. It also helps to precrease the long folds, just be careful not to crease excess layers. (Easiest and best not to crease the little optional layers, either.)
