

Heart to Heart

By Wensdy Whitehead

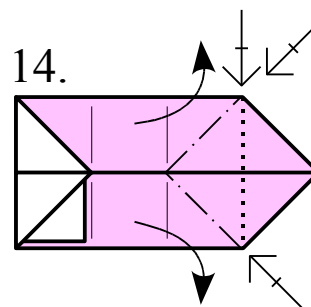

Recommended Paper: thin 6" (15cm) paper-backed foil square. Wet-folding copy paper also works well.

- Dog-ear.
Leave a fudge factor.
- 

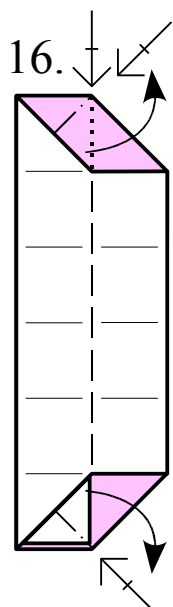

Pre-crease and collapse like a water-bomb base.

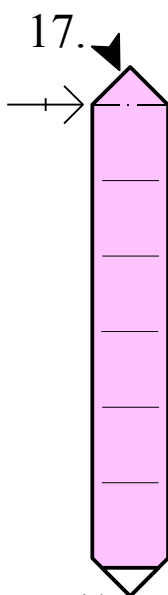

Shovel fold. (Pick up raw and folded edges on the center line and open, passing through a shape that looks like the scoop of a shovel. If you turn the model over while doing this, be sure to turn it back for the next step. These diagrams hold the model in place while the shovel folds flip back and forth.) Repeat behind.

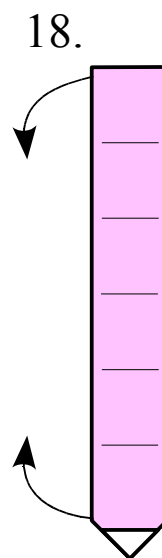

Shovel fold.
Repeat behind.

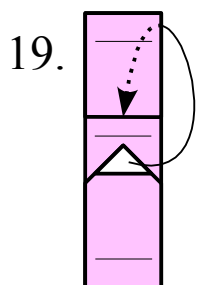

Shovel fold.
Repeat behind.

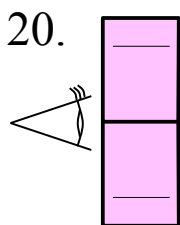

Inside-reverse
fold. Repeat
behind.

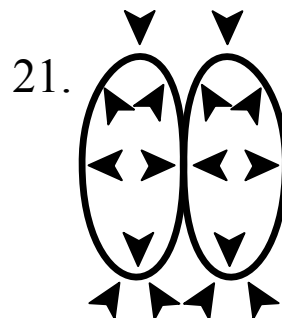

Bend the ends
toward each
other. Repeat
behind.

Hook the outer layer of the white triangle around the hidden triangle in the other end. Temporarily spreading the ends and flattening the triangles can help accomplish this. Repeat behind.

New view.

Shape the loops into hearts. Because each loop is six squares long, the inward and outward pinches at the top and bottom of each heart fall in the middle of squares. Create these pinches, then round the rest of the form.

Done!
